

Long Range Intermodal Transportation Plan Goals

Safety and Security

Improve statewide safety for all modes and all users and reduce system vulnerability and improve system resiliency to maintain essential travel during extreme events.

Economic Competitiveness

Improve intermodal transportation system connectivity, efficiency, and mobility to support existing industries and strengthen national and regional economic competitiveness.

Infrastructure Condition

Invest in the existing highway and bridges to maintain and preserve the existing system.

Environmental Sustainability

Enhance the performance of the transportation system while avoiding, minimizing, and/or mitigating impacts to natural and cultural resources.

Congestion Reduction, Mobility, and System Reliability

Invest in the multimodal transportation system to improve mobility, connectivity, accessibility, and reliability for people and goods.

Multimodal Transportation System

Partner with Metropolitan Planning Organizations, Planning and Development Districts, local governments, and other responsible modal agencies to improve intermodal transportation system safety, accessibility, and connectivity.
